

Hate Speech NLP

CSE 194
Yusuf M

Summary

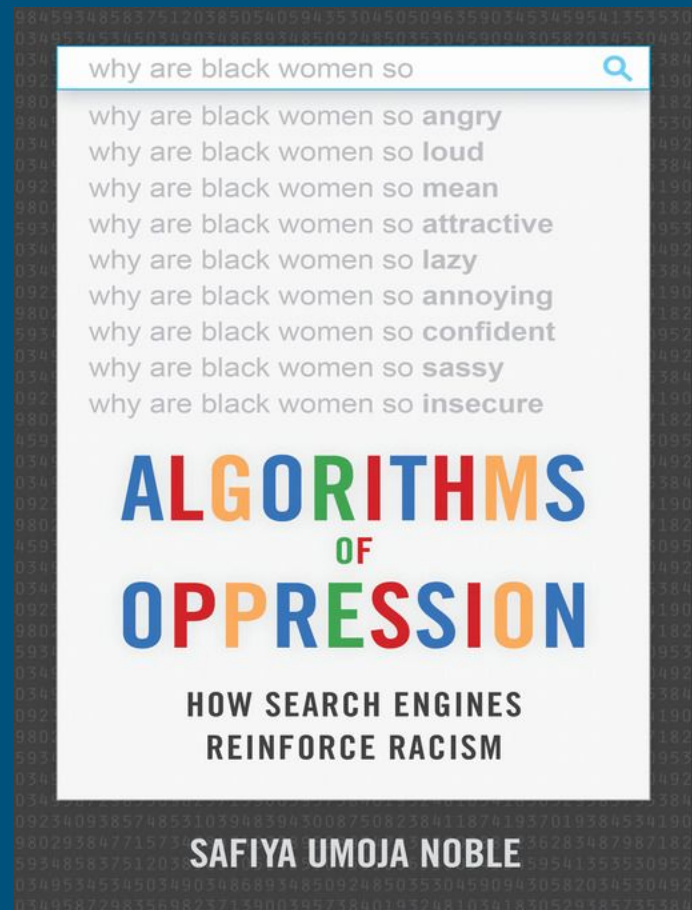

Detecting and analyzing hate speech on videos relating to sexism on a right-wing platform.

Motivation

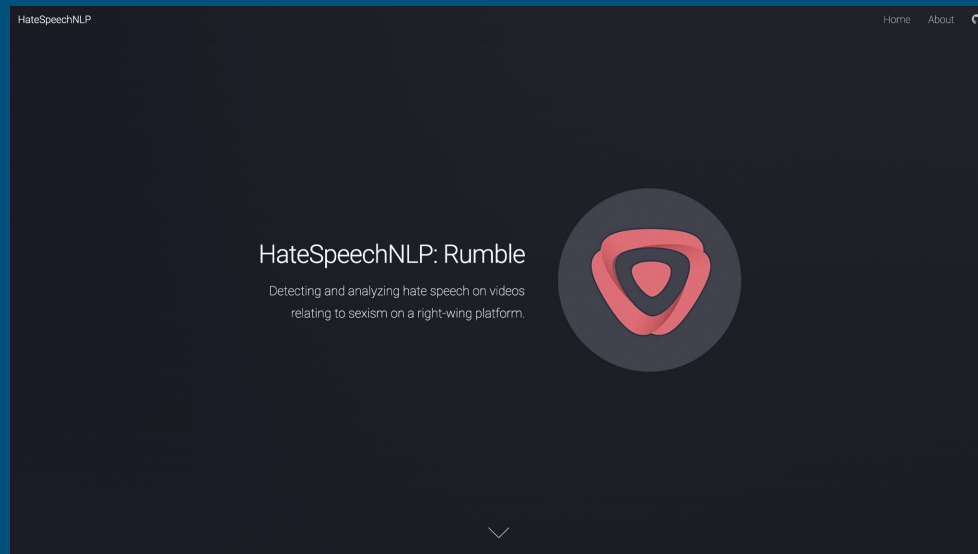

Why?

- Investigate notion that users are “full of hate”
- “Algorithms of Oppression” by Safiya Noble

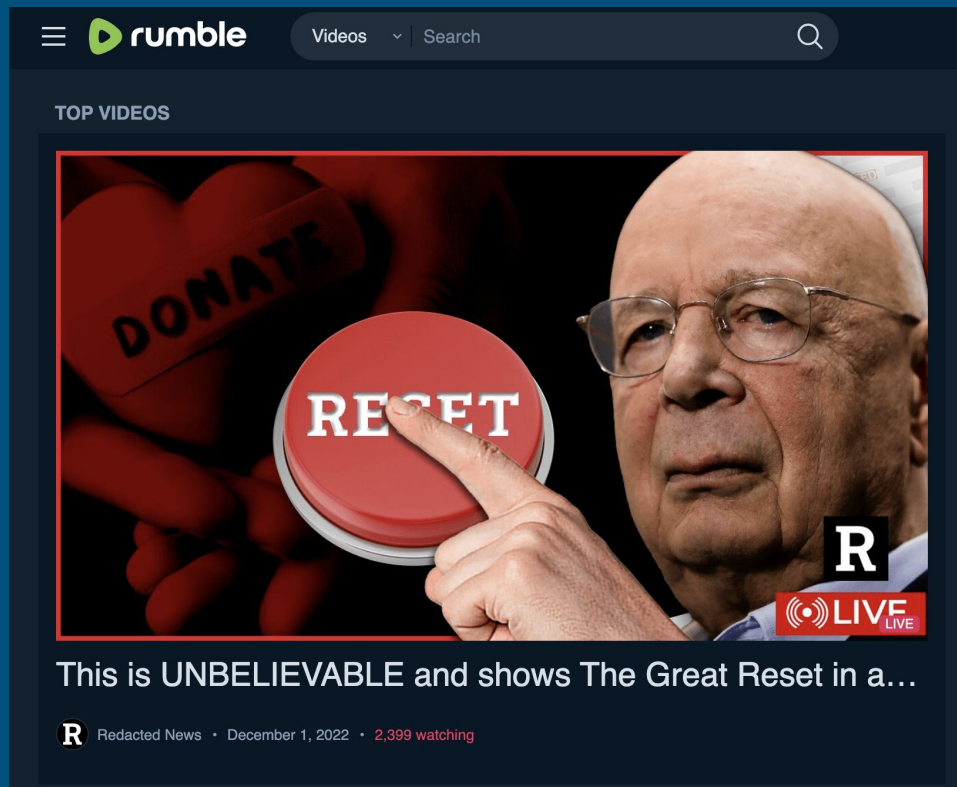

Deliverables

- [Project Website](#)
- Github Repository
 - File with code (ipynb)
 - README.md file
 - CSV files
 - Code for website

Intended Impact

- Show prevalence of hate speech on observed website
- Show how users' hate speech can impact user experience

Future Steps

What's next?

- Scrape more video comment sections on this site
- Compare to other websites' comment sections (i.e. YouTube)
